Ownership:

J Hall Insurance Brokers Inc. is an independent insurance broker. PROLINK Broker Network owns a minority interest.

Insurance is a contract of *UTMOST GOOD FAITH* between all parties of the contract:
YOU (the client) and YOUR INSURANCE COMPANY.

Visit www.PBNet.ca for more information.

Sources of Financing:

J Hall Insurance Brokers Inc. recognizes the value of capital growth and business expansion in a very competitive industry. To finance new initiatives and start new programs, our company and its shareholders may seek financing from Canadian Banks, Trust and/or Insurance Companies to support these operations. The financial requirements of repayment of such loans **do not require and will not influence** the placement of business with any insurer or Financial Institution.

Broker Compensation by Insurance Companies:

Insurers are most selective when choosing an insurance broker with whom they establish a brokerage contract. They seek relationships with professional brokers capable of understanding the complexity of risk management, policy wordings and limitations. Both insurers and clients place the responsibility on brokers to arrange appropriate protection for our clients.

Accordingly, insurers compensate brokers for:

- Attracting the class of risk that the insurer is interested in writing.
- Providing complete details as determined by the insurer.
- Prescribing the type of protection to meet the needs of the client and the interest of the insurer.
- Addressing all service issues and maintaining communications.
- Remitting the required premium after deducting a fixed tariff, commission, or fee, as prescribed by the contract from the insurer.

The compensation for providing these services is as follows:

- Personal automobile insurance contract compensation ranges from **5%** to **15%** of premium, or a flat fee of **\$250** regardless of the amount of the premium.
- Liability and property insurance contract compensation ranges from **7%** to **25%**. Occasionally a flat fee is charged as identified in an invoice.
- (OPTIONAL) Risk Management and Consulting Services: **\$150** to **\$250** per hour.

Contingent profit commissions are additional compensatory income available to the broker if the portfolio of business written with any individual insurer is profitable to the insurer. This is a standard tool used by some insurers to help encourage brokers to select above average clients.

We may receive approximately **1%** to **2%** of the premium as a contingent profit commission from the following insurers. Our insurers* occasionally offer small gifts to insurance brokers in appreciation of the relationship. These gratuities in no way influence the volume of business we place with an insurer.

Reallocation of Commissions to Group Sponsors for Promotion and Administration Costs:

Program Business (a.k.a. Group Business) is often written with unique coverage and at rates that are typically 20% less than standard rates. Notwithstanding, we have some group program arrangements whereby we reallocate a portion of our commissions to a group sponsor in lieu of promotion and administration costs which the sponsor may incur on our behalf. Such allocations can range between 1% and 2% of the premium.
